Abstract

This template helps you to create a properly formatted LaTeX manuscript.

Keywords: DCE-MRI, prostate cancer, normalization, classification, quantification

---

*Corresponding author.

1. Introduction

2. Methods

2.1. Normalization of Dynamic Contrast-Enhanced (DCE)Magnetic Resonance Imaging (MRI) images

2.2. State-of-the-art quantification

2.2.1. Brix model

2.2.2. Tofts model

2.2.3. PUM model

2.2.4. Semi-quantitative modeling

3. Experiments and results

4. Discussions

5. Conclusions and future works
